Types of Care

Dementia and Residential Care

Our home provides a comfortable, safe environment, and is built to promote independence, safety, security, and self-esteem. Our friendly team receives bespoke dementia training from provider dementia care specialists, to minimise distress, and improve the quality of life of residents.

Respite Care

For those seeking extra care, either following a hospital stay, illness, or when regular care is unavailable, we offer respite care. This also allows you to see what life is like in our home and if it's that right place for you..

24- Hour Residential Care

With 24-hour care, you or your loved ones will be supported by two carers who exchange shifts – one carer for the daytime and one at night. They respond to any urgent care needs and prevent accidents. You can be assured of the best care and enjoy a greater sense of security which may be a particular comfort if you live far away, or even in a different country, from your loved one.

Palliative Care

Our team provides round-the-clock palliative care to residents, within a warm, empathetic, and calm environment. Delivering personalised care plans that help to make the end of life as comfortable as possible, we also offer support and offer guidance to their families.

“Thank you for taking care of our dad over the years. The care and compassion provided was exemplary.”

Funding

During a resident's stay, we understand that financial circumstances may change; most often due to personal funds depleting below the threshold for self-funded care. If you become eligible for local authority funding and that funding does not fully cover our fees, please be assured we will work with you to find a sustainable and compassionate solution.

This may involve exploring a third-party top-up arrangement, the local authority agreeing to pay an enhanced rate, or considering a change of room that aligns with available funding. Our priority is always your comfort, dignity, and continuity of care.

We are committed to offering a long-term home. We will never ask a resident to leave solely because of a transition from private to local authority funding, provided a collaborative solution is being pursued.
