# Types of Care

## **Nursing Care**

Our compassionate, skilled and professional nurses collaborate with health professionals to identify your nursing and care needs, ensuring consistent, exemplary quality of care is delivered.

## **Dementia, Residential and Nursing Care**

We offer dedicated care to those living with dementia. Our home provides a comfortable, safe environment, and is built to promote independence, safety, security, and self-esteem. Our team receives bespoke dementia training from We Care Group dementia care specialists, to minimize distress, enhance wellbeing, and improve the quality of life of residents.

## **Respite Care**

For those seeking extra care, either following a hospital stay, illness, or when regular care is unavailable, we offer respite care. This also allows you to see what life is like in our home and if it's that right place for you.

## **24- Hour Nursing Care**

With 24-hour care, you or your loved ones will be supported by two carers who exchange shifts – one carer for the daytime and one at night. They respond to any urgent care needs and prevent accidents. You can be assured of the best care and enjoy a greater sense of security which may be a particular comfort if you live far away, or even in a different country, from your loved one.

## **Palliative Care**

Our team provides round-the-clock palliative care to residents, within a warm, empathetic, and calm environment. Delivering personalised care plans that help to make the end of life as comfortable as possible, we also offer support and guidance to families.

“Thank you for taking care of our dad over the years. The care and compassion provided was exemplary.”

## Funding

During a resident's stay, we understand that financial circumstances may change; most often due to personal funds depleting below the threshold for self-funded care. If you become eligible for local authority funding and that funding does not fully cover our fees, please be assured we will work with you to find a sustainable and compassionate solution.

This may involve exploring a third-party top-up arrangement, the local authority agreeing to pay an enhanced rate, or considering a change of room that aligns with available funding. Our priority is always your comfort, dignity, and continuity of care.

We are committed to offering a long-term home. We will never ask a resident to leave solely because of a transition from private to local authority funding, provided a collaborative solution is being pursued.
